

CONTEC Co.,Ltd.

CONTEC Data Collector for Analog Input/Output

Utilizing Contec's I/O Devices in Edgecross

» Product Feature

• Diversity

Compatible with CONPROSYS IoT Edge Controller CPS-BXC200 + Analog I/O Module, CONPROSYS nano Coupler Unit + Analog I/O Module

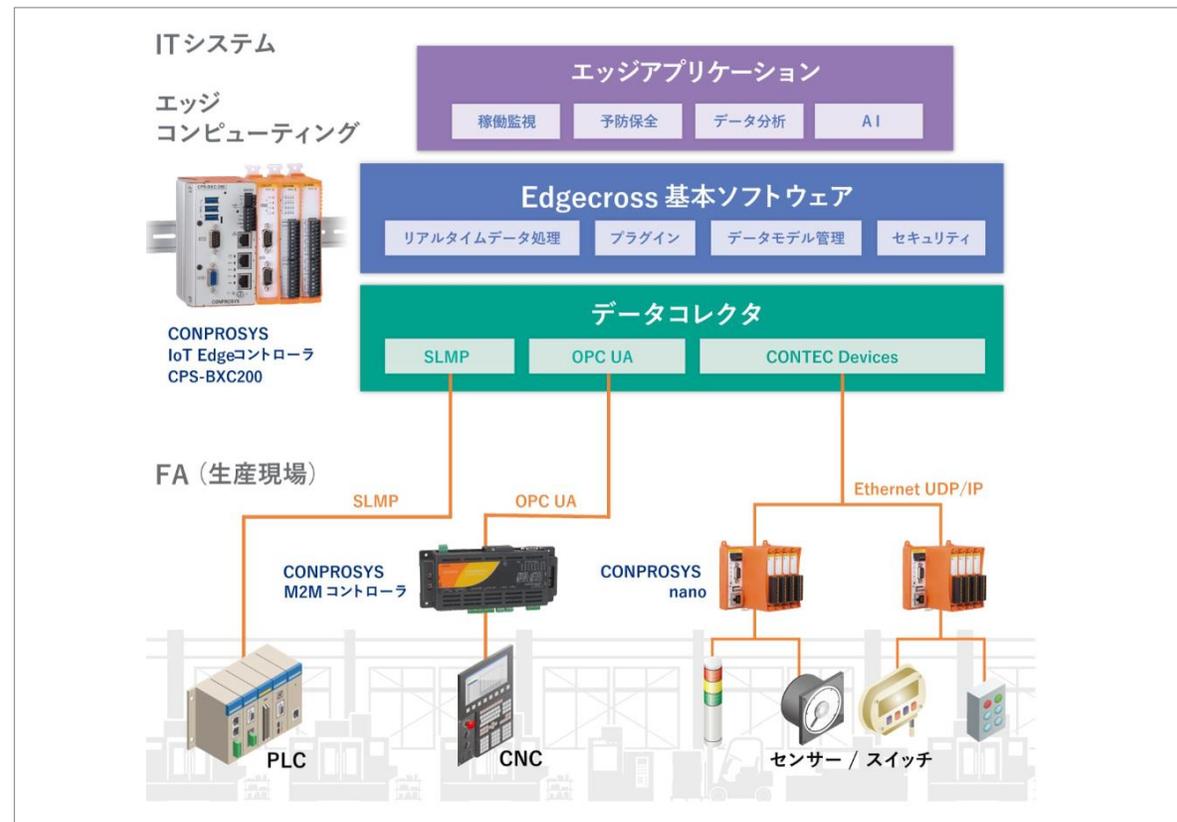

• Value

For users who have purchased an industrial PC, [CPS-BXC200], pre-installed with the trial version of the Edgecross basic software, a license key for the CONTEC data collector is provided for free.
※Download the installer from CONTEC website.

• Future

Plan to release a data collector compatible with counter modules, and sequentially support PC measurement control devices such as PCI boards and USB units.

» Conceptual Diagram

CONTEC Data Collector for Analog Input/Output

Product Overview Headline	<p>Contec's I/O devices, which provide analog input from sensors and output command signals to motors that are not compatible with industrial networks, can be used with Edgecross to expand the scope of the Edgecross platform and contribute to the development of various industries, not only manufacturing.</p> <p>【Supported Devices】</p> <ul style="list-style-type: none"> • CONPROSYS IoT Edge Controller CPS-BXC200 + Analog I/O Module • CONPROSYS nano Coupler Unit CPSN-MCB271-S1-041 + Analog I/O Module • CONPROSYS nano Coupler Unit CPSN-MCB271-1-041 + Analog I/O Module
